

**CISPC 2020 WILL TAKE PLACE ON MONDAY
30 NOVEMBER AT THE LONDON ART HOUSE IN
ISLINGTON**

Recognising that an 'in-person' event may still not be possible by that point, we have back-up plans in place for a hybrid or virtual event. Whatever format the circumstances allow, CISPC 2020 will build on the success of last year's event – providing librarians/information professionals with the opportunity to learn from their peers about best practice in the scholarly publishing cycle.

We have developed our conference themes following input from previous delegates and readers of *Research Information*:

- Best practice changes post-Covid
- Streamlining the process of open submissions
- Best practice in submitting, storing and accessing open and FAIR data
- Implementing software/browser tools to aid open research processes
- Effective communication of approaches to open research

If you are a publisher or vendor that supports and enables the open research agenda, CISPC 2020 is the perfect forum with which to align your brand – particularly in a post-pandemic world.

We have a limited number of sponsorship opportunities available, each of which provide you with visibility before, during and after the event, with plenty of opportunity for engagement with our audience of librarians/information professionals, as well as the wider scholarly communications community.

Details of the packages are overleaf and are available on a first-come, first-served basis.

Finally, we are currently opening our event to a call for papers, so for ongoing updates on the programme and the day itself please visit www.cispc-event.com

To secure your sponsorship package, please contact **Mike Nelson** on +44 (0)1223 221039 or **email** mike.nelson@europascience.com
